

READERSHIP

Groundspread Magazine – the official magazine of the New Zealand Groundspread Fertilisers Association. Groundspread Magazine is a free publication distributed to all members of the NZGFA, stakeholders and interested parties. Distribution is via hard copy with a digital version available online. Longstanding and highly regarded, the magazine provides news and views across all topics affecting the nutrient services and groundspreading industries – from health and safety, professional development to new products and new technology. It keeps readers up-to-date with what's going on around the country via the branch reports and carries important news from the National Council.

Published four times a year, Autumn, Winter, Spring, Summer, Groundspread is well-read and provides a quality and targeted medium for advertisers to increase their visibility to groundspread companies, fertiliser manufacturers and distributors. We welcome all advertising and, as the magazine relies on advertising to cover production and print costs, we are happy to work with you to secure the best option to profile your business. Please note, editorial in support of advertising is by negotiation with the editor.

DIGITAL MATERIAL SPECIFICATIONS

Digital files CS5 files accepted. EPS files: from Adobe Illustrator. All fonts must be converted to paths/outline so they won't need to be supplied. Ensure all colours and images are converted to CMYK PROCESS. Photoshop files: Flatten tiffs or EPS format. CMYK only (not RGB or extra channels. These look OK on a composite proof, but do not separate correctly. Check these carefully). All images must be saved as tiffs or psd. Resolution to be a minimum of 300 dpi. PDF's can be supplied but must be distilled as HIGH RES Press Optimised. All colours must be CMYK (also make sure that all vector art eps files are CMYK Process before distilling. All fonts must be embedded. Full page PDFs will need to have bleed included in postscripting.
